## OBJECTIVE

A Passionate and self-driven Computer science student who demonstrates strong work ethics and creativity, has interest towards Learning and loves to gain and spread knowledge

## EXPERIENCE

- **Mathworks** 8/6/23 - 15/6/23  
mathwork virtual internship program on AI  
Here ,it is a virtual internship I learn about matlab , machine learning,deep learning, signal processing, image processing with doing tasks
- **IBM** 12/6/23 - 25/7/23  
IBM skillbuild virtual internship on front end development  
It's a virtual internship . Here I am doing projects on real world projects on front end frameworks

## EDUCATION

- **RAJIV GANDHI UNIVERSITY OF KNOWLEDGE AND TECHNOLOGY, ONGOLE** 2018-2024  
BTech  
94%
- **RAJIV GANDHI UNIVERSITY OF KNOWLEDGE AND TECHNOLOGY, ONGOLE** 2018-2020  
pre University course  
95%
- **S.B.V.S.R.M.C.H.S** 2018  
SSC  
100

## SKILLS

- languages: python,c,java, data structures, algorithms,html,css, javascript , react js
- Database:SQL, Oracle
- problem solving, data structures and algorithms
- data science with python, artificial intelligence, machine learning

## PROJECTS

- **yogamania Website**  
Role:coder  
Duration:3months  
Team:5memebbers  
It is my software engineering project to know how to start a project from beginning stage to end with clear SRS document and UML diagrams
- **Random Quote Machine**  
Role:coder  
Duration:1month  
Team: single  
It is my freecodecamp certification project by using html,css and javascript

## INTERESTS

- solving at least 5 problems at hacker rank and codechef daily
- practicing python , javascript, machine learning, data science codes

## CERTIFICATIONS

- cloud computing with AWS(from great learning)
- problem solving basics (hackerrank)
- python basics (hackerrank)

- matlab onramp, machine learning onramp,signal processing onramp, image processing onramp, Deep learning onramp(mathworks)
- new responsive web design certificate (freecodecamp)
- javascript and algorithms(freecodecamp)
